

Promoting Quality of Life

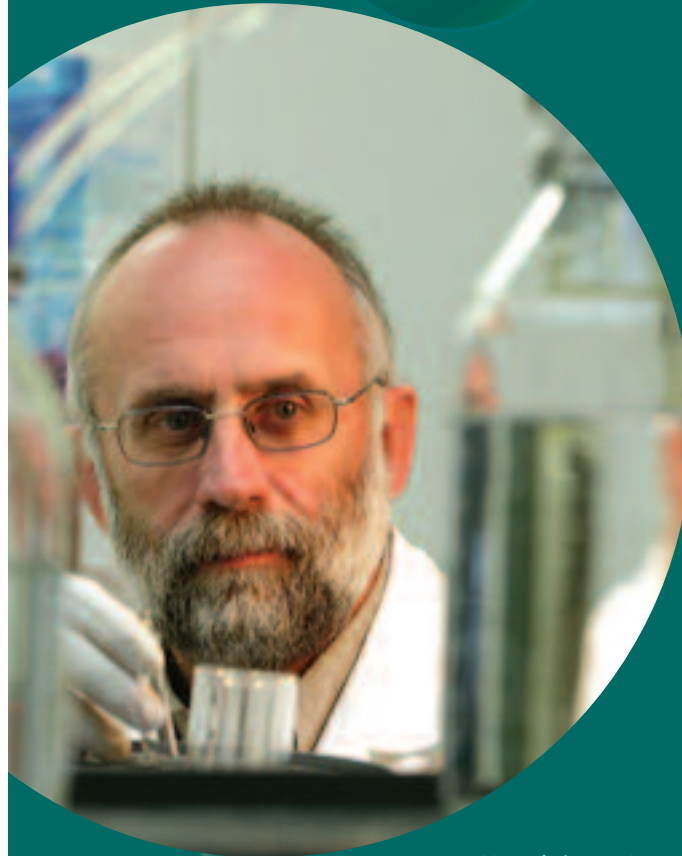

Our employees know they perform a vital role in enhancing the lives of people across the globe. For example, our biotherapies prevent Rh-factor problems in newborns and prevent rejection following organ transplantation. Our biotherapies also promote speedy recovery from heart surgery and burns.

CSL Behring biotherapies replace missing components in the blood. They unlock the treasures in "Liquid Gold" as plasma is often called. CSL Behring employees empower people with rare and serious diseases and provide the treatments they need to live full lives.

Our employees are delighted to say the jobs they perform at CSL Behring help others to meet the challenges of living with chronic disorders.

Here are a few of the positive outcomes our employees make possible:

- Women with von Willebrand disease enjoy successful pregnancies.
- Professional and amateur athletes with bleeding disorders are able to play, compete and train.
- Children with primary immune deficiency and hemophilia can attend school and play with their friends.

Biotherapies for Life™ **CSL Behring**

A Global Leader

CSL Behring is a global leader in the plasma protein biotherapeutics industry. We research, develop, manufacture and market biotherapies. We are committed to saving lives and improving the quality of life for people with serious and rare diseases such as primary immune deficiencies, hemophilia, von Willebrand disease and genetic emphysema.

We attract and retain talented people who share our passion for creating innovative therapeutics.

We take pride in more than 100 years of innovation in plasma therapies. Every day our employees build on that experience to create a great tomorrow for patients.

"I was guided by the desire to direct my life's work to an important and honorable goal."

EMIL VON BEHRING
In recognition of his production of diphtheria serum therapy, Behring was the first recipient of the Nobel Prize for Medicine and Physiology in 1901.

Bring your talents and expertise to a values-driven culture that will support you in reaching your highest potential.

A leader with global reach—thousands of employees across 19 countries.

Vision and Values

The CSL Behring Commitment

CSL Behring is passionate about safety, quality and the customers we serve. Our five core values underscore our commitment to providing the best possible therapies and services.

Customer Focus

We are passionate about meeting the needs of people with life-threatening diseases and the professionals who serve them.

Innovation

Our dedication to research and development ensures we maintain a robust product pipeline of new, safe and innovative biotherapies. We are committed to continuous improvement.

Integrity

We are ethical and honest always and remain deeply committed to our heritage of service.

Collaboration

We collaborate with each other and with stakeholders to achieve better results.

Superior Performance

We thrive in an environment that fosters and values innovation. We endeavor to be the best at what we do.

A Few of the Exciting Opportunities at CSL Behring
